Scope of this event

This OpenRemote User event targets first time users as well long time community members.

As an introduction, we will be explaining the new releases and the products which are targeted to companies. Also some use cases will be shared.

For long time users we will organise round tables to discuss different application areas and the way OpenRemote can best contribute. For first time users we will have an introduction training.

The second day we will combine groups and have long time users discussing with first time users, and helping out on new implementations.

Locations

University: Eindhoven Technical University, Innovation Labs, Horsten 1, Eindhoven

Catharina Square: Catharina plein, Eindhoven

Usine: Lichttoren 6, 5611 BJ, Eindhoven
